

# Exploring Proretirement And the Third Quarter of Life

Richard L. Hald, Ph.D., PCC, Adult Mentor

Proretirement is life oriented rather than work oriented. In proretirement we move into the future, building a new chapter of life by design, with energy and passion. It is filled with the potential for new fulfillment. Class members who are planning for or who are retired will make proretirement plans for their lives.

**Richard L. Hald, Ph.D., PCC, Adult Mentor**

Dick leads groups with energy and passion, and mentors clients as they discover their abundance and possibilities for the 3rd quarter of life.
